DETAILED ACTION

Response to Amendment

1. Applicant's request for continuing examination (RCE), amendment and accompanying remarks filed 7/12/07 have been fully considered and entered. Claims 1 and 14 have been amended and claims 2-4, 6, 13, 15-16, 19 and 26 are canceled. Applicant's amendments are found patently distinguishable over the prior art made of record. As such, the rejections of claims 1, 5, 7-12, 14, 17-18, and 22-25 rejected under 35 U.S.C. 103(a) as obvious over the combination of Ootani (JP 55115440) and Trinh (US 5429628) are hereby withdrawn. In addition, the rejections of claims 12-14 rejected under 35 U.S.C. 103(a) as being unpatentable over Ootani and Trinh et al. in view of Wood et al. (U.S. Patent No. 5,776,842) are also hereby withdrawn. Applicant's arguments are found persuasive of patentability. Claims 1, 5, 7-12, 14, 17-18 and 20-25 are allowable for reasons set forth herein below.

Election/Restrictions

2. Claim 1 is directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 20-21, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 4/18/05 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the

Art Unit: 1794

present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance: Claims 1, 5, 7-12, 14, 17-18, 20-25 are allowable.

Independent claim 1 is found allowable over the combination of prior art. Specifically, the combination of prior art fails to teach the claimed fiber having an amount of zinc particles dispersed therein. In addition, the combination of prior art fails to teach the claimed fiber having the claimed cyclodextrin material comprising at least one substituent having an alkyl ester group. An updated art search did not produce any new substantial art for which to base a rejection and presently no motivation exists to combine references to form an obviousness type rejection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to LYND A M. SALVATORE whose telephone number is (571)272-1482. The examiner can normally be reached on M-F.
